

I LOVE THIS SCHOOL TOUR

All Things Media and www.imusiccd.com, in partnership with music recording artist and entertainer Billy Craig, have developed and produced an affordable Musical Show specifically designed for elementary schools to be performed all across the USA.

This age appropriate high-energy musical journey filled with songs, laughter and original characters like Super Sam, the super hero, SchoolJa Boy, the hip hop rapper man and ZIGGY the classic rocker dude will inspire and challenge kids with positive messages and fun making it the concert event of the year for elementary schools!

“We’re so excited to have an extremely talented songwriter and performer like Billy on board to help us make this show really something special for the kids” says Brad Johnson, National Promotions Manager for All Things Media.

“Billy has worked with thousands of kids in the Midwest on recording projects and they all love him. . . so we brought this idea to him of putting together a concert-like musical show for schools and he got really excited about it.”

“I was surprised since he has been so busy these days with his new full length adult oriented CD release, **This Side of Somewhere** featuring 14 original compositions. The recording started out at the legendary Sun Studio in Memphis, where Johnny Cash began his storied recording career, and the process was completed in the metro-Detroit area. “
